

Important EMSIRS-3 Information

Access to Version 3 of EMSIRS will be very different from the way it has been done up until now.

- Each person who accesses EMSIRS for any reason will have to have their own, individual access credentials. Each user will be responsible for all activity that occurs using their credentials.
- Each agency will have one 'EMS Administrator' who will be issued their access credentials by this office. Those credentials will be issued to the person we have listed as 'Chief/CEO' of the agency and confirmed in the EMS Agency Demographic Database.
 - A link to the EMS Agency Demographic Database can be found at http://www.ems.ohio.gov/ems_datacenter.stm.
- 'EMS Administrators' will be responsible for creating additional users for their agency.
- If your agency does not yet have 'EMS Administrator' access credentials, they can be requested by e-mailing EMSdata@dps.ohio.gov.

As always, questions and comments can be directed to the EMS Office of Research and Analysis by e-mail (EMSdata@dps.ohio.gov) or phone (800-233-0785).
