

OHIO DEPARTMENT OF PUBLIC SAFETY
BUREAU OF MOTOR VEHICLES

MOPED SAFETY ALERT

To help make moped riding fun and safe, you, the operator, must know the following rules including:

- Wearing a protective helmet with the chin strap properly fastened, if you are under 18;
- Driving a moped equipped with a rear view mirror;
- Operating the moped, when practicable, within three feet of the right edge of the roadway;
- Never carrying another person on the moped.

Many of the licensing and registration procedures required for automobiles and motorcycles are the same for mopeds.

- To become licensed to operate a moped, 14 and 15 year-olds must pass the usual vision and written tests, as well as a road test. This rule also applies to persons not currently holding a valid operator's license, regardless of age.
- Probationary motorized bicycle licenses are required for 14 and 15 year-old operators.
- The probationary license can be revoked until the age of 16; if **EVEN ONE TIME**, the operator violates state laws regulating moped operation or state or local traffic laws.
- Operators are required to obtain and display a rear license plate.

REMEMBER: A moped operator must obey the same traffic laws that apply to operators of bicycles and motor vehicles. This includes obeying all traffic signs and signals, traveling in the same direction as the rest of the traffic, signaling turns, and yielding the right of way.

WHAT IS A MOPED?

Just because something looks like a moped, that doesn't guarantee it is one in the eyes of the law. Only the Ohio Department of Public Safety can certify which vehicles meet state standards. You should not accept anyone else's statement that a vehicle is a moped.

The Ohio Revised Code defines a moped, or motorized bicycle, as any vehicle with two tandem wheels or one front and two rear wheels which is capable of being pedaled and is also equipped with a helper motor. The helper motor may not:

- Have a piston displacement of more than 50 cubic centimeters;
- Produce more than one brake horsepower; and
- Propel the vehicle at a maximum speed greater than 20 mph on a level surface.

If a vehicle exceeds any one of these criteria, it is legally a motorcycle. Be certain **BEFORE** you buy. Contact your local deputy registrar or the Ohio Bureau of Motor Vehicles, Registration Section, P.O. Box 16520, Columbus, Ohio 43216-6520, (614) 752-7800 or (800) 589-TAGS (8247), if you have questions. See reverse side for the list of vehicles that may legally be operated as "mopeds" in Ohio.

MOST COMMON QUESTIONS AND ANSWERS ON OHIO'S MOPED LAW

Q. What kind of helmet should I wear?

A. As provided in Ohio Revised Code (R.C.) Section 4511.521 and Ohio Administrative Code Chapter 4501.17, a motorcycle helmet meeting state and federal standards.

Q. I have a two-seater moped. Is it legal to carry a passenger?

A. No. As provided in R.C. Section 4511.521, no person operating a moped can carry another person on the vehicle.

Q. Do I always have to operate my moped so close to the curb?

A. As provided in R.C. Section 4511.521, you must stay within three feet of the right edge of the roadway, unless it is not possible to ride there. So if you have to turn left, you may do so from a left-turn lane. And if you see an obstacle or road hazard up ahead, you are certainly permitted to steer around it. But use your rear view mirror to make sure you don't drive into the path of an oncoming car.

Q. I already have a valid driver license. Does this law affect me in any way?

A. Under R.C. Section 4511.521, if you are under 18, you must wear a helmet. Older drivers don't have to do anything special to operate a moped if they're already licensed, but wearing a helmet would be an extra safety measure.

APPROVED MODELS

In the case of manufacturers who market more than one model, only models listed below are approved by the State of Ohio. Only vehicles on this list may legally be operated as "mopeds" in Ohio.

AMF "Roadmaster"	Intramotor "Pinto"	Puch "Maxi N"
Aspes	Intramotor "Scout"	Puch "Maxi Plus"
